

SAVE THE FROGS! Ghana Sponsorship Opportunities

Sponsor the SAVE THE FROGS! Ghana Expedition and Empower a Nation to Protect Amphibian Populations

Frogs are rapidly disappearing in Ghana and **your company can help save them**. In September 2016, SAVE THE FROGS! will lead an international team of eight amphibian biologists on the inaugural SAVE THE FROGS! Ghana Expedition. The mission of the expedition is to protect Ghana's amphibian populations, empower the next generation of Ghanaian frog conservationists, and expand the international network of environmentalists interested in protecting West Africa's endangered amphibians and ecosystems.

By sponsoring the SAVE THE FROGS! Expedition to Ghana, **your company will gain valuable positive publicity and help us protect amphibious and human life in West Africa**. Your contribution will enable us to restore and protect critical frog habitat, and to train the next generation of Ghanaian amphibian biologists. Your sponsorship will enable us to massively expand SAVE THE FROGS! Ghana's amphibian conservation efforts and greatly extend the reach of wildlife conservation and environmental progress in Ghana. Thank you in advance for your support and we look forward to making SAVE THE FROGS! Expedition to Ghana a huge success for everybody involved. Together we can SAVE THE FROGS!

About SAVE THE FROGS! and SAVE THE FROGS! Ghana

Founded in 2008, SAVE THE FROGS! (www.savethefrogs.com) is the world's leading amphibian conservation organization. SAVE THE FROGS! works in California, across the USA, and around the world to prevent the extinction of amphibians, and to create a better planet for humans and wildlife.

Founded in 2011, SAVE THE FROGS! Ghana is West Africa's first nonprofit organization dedicated exclusively to amphibian conservation, and is the first international branch of USA-based nonprofit SAVE THE FROGS!. The mission of SAVE THE FROGS! Ghana is to protect Ghana's amphibian populations and to promote a society that respects and appreciates nature and wildlife. **Over 80% of Ghana's original rainforests have been cleared** and a third of the country's amphibians are under threat. With your support, SAVE THE FROGS! Ghana can exponentially grow the number of Ghanaian amphibian biologists; create a new national park in the biodiverse Atewa Hills (home of the critically endangered Togo Slippy Frog); and restore habitat for the critically endangered Giant Squeaker Frog.

If your company would like to sponsor the SAVE THE FROGS! Ghana Expedition, then please send us an email of interest to Starkey@savethefrogs.com. Thank you for your support.
